Abstract. — We study the asymptotic behavior of the eigenvalues of the Laplacian on a family of Riemann surfaces with boundary. The eigenvalues are ordered by increasing real part. We show that the eigenvalues converge to those of the Laplacian on the limit surface as the parameter goes to infinity.

1. The first part of the text discusses the importance of the teacher's role in the classroom. It emphasizes that the teacher should be a guide, not just a provider of information. The teacher should encourage students to think critically and to ask questions. The teacher should also be a role model, demonstrating the values and attitudes that are expected of students.

Twitter is a place where people can express their opinions and feelings. It is a platform for free speech and expression. It is a place where people can share their thoughts and ideas with the world. It is a place where people can connect with each other and build relationships. It is a place where people can find support and encouragement. It is a place where people can make a difference.

It's really hard to keep silent reading this nonsense. The USA 🇺🇸 @potus is interfering publicly in correct legal procedures of a NATO partner in a manner close to blackmail, and his pompous „Ambassador“ in Germany is in support, although he has really nothing to do with it.

It's really hard to keep silent reading this nonsense. The USA 🇺🇸 @potus is
interfering publicly in correct legal procedures of a NATO partner in a
manner close to blackmail, and his pompous „Ambassador“ in Germany is in
support, although he has really nothing to do with it.

Criticism fine. Part of the trade. And part of yours too. Accusing someone of intentional malpractice is something quite else. Especially when that person is one of finest journalists around.

5 4

Jonathan Witt @jonathan_witt 8 Jun

Perhaps you should familiarize yourself with the definition of malpractice. Leaving out pertinent facts, and burying others deep into an article meant to evoke negativity against an administration sure fits the bill. This is part of why nobody trusts journalists anymore.

This piece is off the charts bias. NYT reporter in Brussels fails to mention the NATO 2% commitment until paragraph 27. Qualifying it as a NATO requirement is basic journalism, failing to mention Berlin's wavering on increased spending is intentional malpractice.

Something that's genuinely interesting from a human psychology perspective is people who advocate boycotts of Israel getting the vapors when Israel responds by boycotting them. Is it that they feel acting like a bully is an entitlement?

Why stay if it's that dangerous for them. I believe (but my opinion not worth much) we should really re-evaluate if these pastors don't know when to leave. Is it our obligation to get them out? Least Trump negotiates their release and no \$\$'s are involved. Put on the sanctions!

If you are a Christian you have an obligation to proclaim the Gospel of Jesus and make disciples of all nations. Even if it is difficult. Paul, Peter, John, and the disciples were imprisoned, beaten and some martyred for this message. Jesus commands it, we obey.

Because the US is shameful

...and expending more on its pledged amount

However, this does not necessarily paint the same picture if you take the population size of the countries into account. According to the Green Climate Fund's tracker, the US pledge amounts to just over \$9 (£7) a person. Sweden's pledge represents almost \$60 (£47) per person, the highest out of any country. The UK has proposed almost £15 a person. India and China have not put forward any cash into the Green

Zarif tweets but the Iranian people can't. Iran blocks twitter. @jack shouldn't allow regimes who block twitter the ability to tweet themselves. Why isn't this a twitter rule?!

Eli Lake @ELake

The most insulting part of the @Zarif interview on @FoxNewsSunday is that Zarif claimed to speak for Iran's people. This liar speaks for the regime that torments Iran's people

Secretary Pompeo @SecPompeo

The U.S. has sanctioned Iran's Central Bank and National Development Fund, both of which finance the regime's terrorism. Attacking other nations and disrupting the global economy has a price. The regime must be held accountable through diplomatic isolation and economic pressure.

"do more" is doing a lot of work there.

~~43/44~~ The President. I would like you to do us a favor though because our country has been through a lot and Ukraine knows a lot about it. I would like you to find out what happened with this whole situation with Ukraine, they say CrowdStrike. I guess you have one of your wealthy people. The server, they say Ukraine has it. There are a lot of things that went on, the whole situation, I think you're surrounding yourself with some of the same people. I would like to have the Attorney General call you or your people and I would like you to get to the bottom of it. As you saw yesterday, that whole nonsense ended with a very poor performance by a man named Robert Mueller, an incompetent performance, but they say a lot of it started with Ukraine. Whatever you can do, it's very important that you do it if that's possible

We have identified 10 Americans who were inside the synagogue at the time of the attack, all are safe and unharmed.

US-Botschaft Berlin [@usbotschaft](#)

We strongly condemn the attack on the synagogue in #Hale today, on Yom Kippur, the holiest day of the Jewish year. This attack is an attack on all of us and the perpetrators must be held accountable. We mourn the victims of this senseless violence. #halo910

You'd think our Ambassador to Germany would be particularly sensitive to the freedom of speech and expression. You'd also think he'd have better things to do. Plus, he must agree Zeldin is that dumb since he avoided that one.

The story is sourced with people who are annoyed that people of faith are being included. "Politicizing foreign aid" is when you exclude people you don't understand. Stop smearing religious people. Don't be intolerant. [#inclusionwins](#)

Blake News ✓ @blakehoushe

Wow, an ambassador smearing a reporter who ran a deeply sourced story on how the Trump administration is politicizing foreign aid. Other journalists were chasing this, too. No evidence whatsoever that @yjtorbati is "anti-faith groups." twitter.com/richardgrenell

Reading the story shows how your publication mocks people who want to include faith groups. You seek a system where they are excluded - it's this intolerance towards people of faith that is the problem.

ProPublica @propublica

Reporters who write for the public but can't take public criticism of their work should learn to code.

Millennial reporters are particularly thin skinned and pretend the critiques are "personal attacks".

But the public is tired of the bias and will continue to call it out.

This is from an @HRC Communications person. Justifying violence on a gay Asian because he's conservative is a new low for their partisan politics. They become what they say they hate.

Charlotte Clymer   @cclymer

Andy Ngo intentionally provokes people on the left to drive his content. Being attacked today on video taken by an actual journalist (because Ngo is definitely not) is the greatest thing that could have happened to his career....

Решение задачи сводится к решению системы уравнений

$$\begin{cases} x + y = 10 \\ x - y = 6 \end{cases}$$

Сложив эти уравнения почленно, получим:

$$2x = 16 \Rightarrow x = 8$$

Подставив найденное значение x в первое уравнение, найдем y :

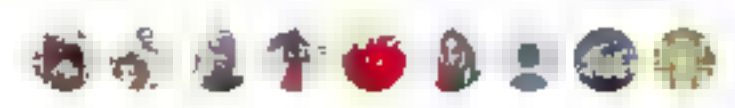

$$8 + y = 10 \Rightarrow y = 2$$

Таким образом, решение задачи — 8 кг картофеля и 2 кг моркови.

This is from an @HRC Communications person. Justifying violence on a gay Asian because he's conservative is a new low for their partisan politics. They become what they say they hate.

Charlotte Clymer 🇺🇸 ✓ @cmdclymer

Andy Ngo intentionally provokes people on the left to drive his content. Being attacked today on video taken by an actual journalist (because Ngo is definitely not) is the greatest thing that could have happened to his career...

Correction: they've always been what they say they hate. Left wing is on the same side of the pie chart as right wing. Both violent and love control.

This is from an @HRC Communications person. Justifying violence on a gay Asian because he's conservative is a new low for their partisan politics. They become what they say they hate.

Charlotte Clymer @cmdlymer

Andy Ngo intentionally provokes people on the left to drive his content. Being attacked today on video taken by an actual journalist (because Ngo is definitely not) is the greatest thing that could have happened to his career...

Reagan was a white supremacist, an evangelical and a racist who doesn't deserve statue in our capital. He couldn't take credit for the Berlin wall coming down. This was mainly owed to the courageous people in Eastern Germany and the Russian president Gorbachev.

REurope can't have it both ways. Either fully fund NATO military % and buy gas from the US or let's redefine NATO mission as Europe must see Russia as a partner to rely on their good graces to keep them alive during the winter months.

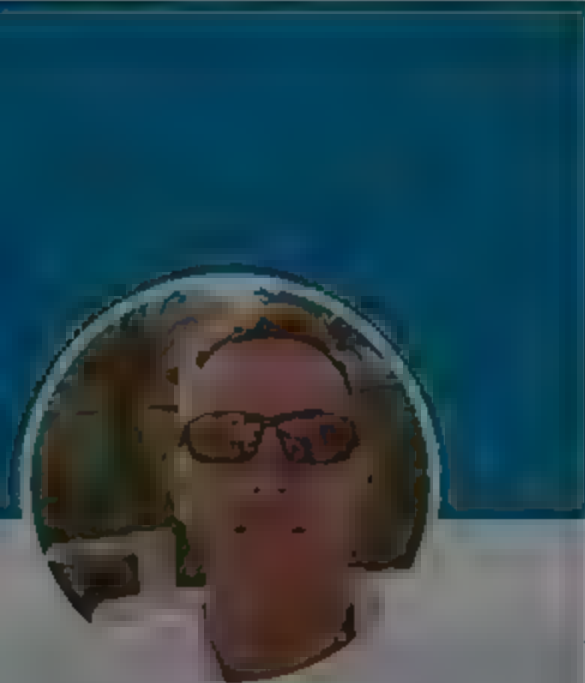

Pres. Trump must make them decide

This is part of what has confused me about the border issue. It is vital to
insure "parents" are who they say they are (DNA testing which takes time).
Otherwise, we are condemning children to the horrors of the sex trade

Pompeo is right. You thought a charm offense on Iran would work - and it didn't. Even countries that support your JCPOA admit this now.

Ben Rhodes @brhodes

This is a lie, offensive, obscene and an absolute disgrace. This man and his boss have destroyed America's reputation and made a shambles of Iran policy in part because of their pathetic obsession with Barack Obama who they will never, ever measure up to. twitter.com/joshrogers/status/1210000000000000000

Fact: Team Obama's style of diplomacy helped turn Syria into a genocide, allowed DPRK to launch 16 missile tests in 2017 & gave Iran a plane full of cash.

Ben Rhodes @brhodes

Important thread: By escalating conflicts, hollowing out State, pulling out of agreements, alienating allies who could share burdens, and dismissing diplomacy, Trump is militarizing foreign policy and risking more wars.

Protecting US diplomats from a planned terrorist attack should ALWAYS be the priority. US diplomats risk their lives for Americans. It's offensive to calculate our protection isn't worth the risk. It's also clear you aren't getting the latest information.

Rep. Elissa Slotkin @RepSlotkin

The two administrations I worked for both determined that the ultimate ends didn't justify the means. The Trump Administration has made a different calculation.

Soleiman was behind Ambassador Stevens' raid and killing. And the biggest terrorist in the world. Operating on foreign soil, in a combat zone, and led the raid on our embassy. Head of a US-designated terrorist organization. Responsible for killing and maiming many, many troops.

Dear Mr.Grenell They have done it before! ayatollahs regime has built & paved over mass graves in Iran to hide their crimes! Those ppl were political prisoners who were executed by regime in 80's! #EyesOnIran

The people of Iran are so brave. I'm humbled by their courage. I've gotten thousands of messages like this:

😞😞 hello! I'm so sad ! what will happen!!? I'm worried about my family! my sister sent me a message from Iran that with sms government sent to so many people there ,we are observing all your activities in social media be careful we will come and suddenly arrest the people who are doing political activities !!she got afraid and told to me that call us less and be careful when you are sending post! one of my friends told me that ,from Sepah they called him and warned to delete his posts which were against Soleymani!!!

...US from onpec. This is a both sides argue issue, it's about
facts: Iran was complying with deal that rolled back nuke program and

Trump pulled out and Iran resumed nuke program and rocket attack...

And to imply that Iran was acting normally after your cash deal also defies the facts. Soleimani led attacks in Iraq, Syria and the region. We are safer without him. Diplomats are alive because POTUS acted.

That's the idea, fake news is a persuasion tactic not unlike a dishonest car salesman saying trust me this car is perfect.
I have been interested in propaganda methods for years and they work like magic on partisan brains.

NEW: The arrested Harvard prof is tip of the iceberg. When the Texas A&M system investigated how much Chinese money its faculty was getting, officials were astounded - over 100 were involved in Chinese talent recruitment plans. Only 5 disclosed. wsj.com/articles/china... @aviswanatha

It's not just universities. Big Chinese money is being dangled in front of think tanks, lobbying groups, and other power brokers in the political arena.

And FARA registration/enforcement is a joke. Apart from using FARA to chase Trump allies, The DOJ almost never investigates or enforces it.

Our country would do a whole lot better with healthcare for all Americans and the Social Security benefits they deserve. Unfortunately, Trump wants to overturn the Affordable Care Act after the election and completely gut Social Security to pay for more tax breaks for the top 1%.

We're in an economic bubble fueled by massive deregulation and a bunch of cooked books that is poised to burst during Trump's second term if he is re-elected. Also, many hard working Americans are drowning up to their eyeballs in so much student loans and credit card debt.

Well, there's the cover of the old Time magazine that asked, "Is God Dead?" And then there's thousands of philosophy students focused on 2500 years of that same question: God or No God

Kadri, the United States is asking for Kosovo to drop the 100% tariffs. It hurts Kosovo and chases businesses away from creating jobs. Albin is right on this.

Dear Ambassador, Albin is a liar! My proposal on tariffs is very clear since Jan 2019. Albin didn't support it & campaigned against it. Of course it helps the US. Your hatred of Trump is a bias. Read more. NATO has collective capabilities. Countries sign up for what they can deliver in case of need. Once others become fully capable then we can do less.

Andrew Feinberg @AndrewFeinberg

You'd think our Ambassador to Germany would understand that @NATO does not work like a country club, members increasing defense spending does not "fund" NATO, and members boosting their own defense budgets has not resulted in any change to how much the US spends on defense

I find it sad, but not surprising, that our failed foreign policy establishment believes that Americans overpaying their share of the NATO burden was sustainable.

CO2 emissions per capita in the US are almost twice as high as in Germany, so to follow the US example Germany would have to drastically increase emissions first to then brag about a 2.9% reduction later. I doubt [#Habeck](#) would like that approach. [@tedcruz](#)

Grenell is NOT going to be the permanent ODN. He's involved in the discussions about who the administration will nominate, per two people briefed on his role. That will allow the clock to reset so Grenell can stay as acting but only for a short time. nytimes.com/2020/02/20/us/

I welcome the release of the #US plan which hopefully brings new momentum to the #MEPP having been in a deadlock for far too long. We call on the parties to start negotiations on the basis of this plan under #US leadership with a view to achieving a two-state solution.

If you are not on the roof of the embassy you can't see it. No one on the street can see it. It stands directly in front of the listening devices hidden in the American embassy. Seen this way, this is a perfect place. A „popanz“ around a minor inconsequential thing.

Absolutely

Zarif in particular has very close relations to terrorists such as RGC Quds Force chief Qasem Soleimani, Hezbollah and the Assad regime. As an Iranian, I support an initiative by the U.S. to sanction Zarif & Twitter to permanently suspend his account.

This piece is off the charts bias. NYT reporter in Brussels fails to mention the NATO 2% commitment until paragraph 27. Qualifying it as a NATO requirement is basic journalism, failing to mention Berlin's wavering on increased spending is intentional malpractice.

Steven Erlanger @StevenErlanger

While Trump and European allies emote in Normandy, Washington and Brussels are in a tendentious argument about how Europe wants to increase defense spending, in response to US demands.
